

Other Conditions

Consideration of referral for an MDT opinion or transfer of care

The woman may need to be referred for care or discussion to the nearest specialist unit (as indicated in the table) either:

1. Maternal Medicine Centres (MMC)

The MMCs have the responsibility for hosting the MDT, the regional guidelines and standards of care

2. Regional Unit (RU)-

The RU has expertise and can manage pregnant women with the condition

| Condition | | Category of condition management | Maternal Medicine Centre (MMC) | Regional Unit (RU) | Pre-pregnancy Counselling | Notes- Geographical variants |
|--------------------|-----------------|--|--------------------------------|--|-------------------------------|-----------------------------------|
| Infectious disease | HIV | Can be managed in local unit, but discussion if required with Obstetric Medicine MDT | Bristol-NBT | All areas should have access to HIV services UHBW Bath Gloucester Yeovil Taunton Barnstable Exeter Torbay Plymouth Truro | Local with HIV services | Swindon refer to Oxford |
| | Hepatitis B, C | Can be managed in local unit, but discussion if required with Obstetric Medicine MDT | Bristol-NBT | All areas should have access to hepatitis services as above | Local with hepatitis services | Swindon refer to Oxford |
| | Malaria (acute) | Discuss with MMC /RU regarding most appropriate further | Bristol-NBT | Exeter Plymouth | N/A | OM MDT Swindon refer to Oxford |
